WHAT IS MY WINE STORAGE?

«My Wine Storage» manages your wine cellar. «My Wine Storage» shows the current value of your wine collection. If you enter minimum quantities for your wines, you will automatically receive a message as soon as these are reached or not reached. "My wine storage" also creates an order overview of the wines to be reordered. This means you always have an overview of your wine collection.

The number of missing bottles for which minimum quantity monitoring has been activated is displayed in the programme icon in the dock.

General operation

If your Mac has a Touch Bar, you can also use the functions from the toolbar menu in the Touch Bar.

If you touch the "Orders" icon on the Touch Bar, new icons will appear on the Touch Bar.

Here you can access the administration of:

- Generate order
- Edit order
- Delete order
- Graphical overview of all orders

If you touch the "Administration" icon on the Touch Bar, new icons will appear on the Touch Bar.

Here you can access the administration of:

- Wineries
- Wine suppliers
- Countries/Regions
- Grape varieties
- Own categories
- Countries

Touch Bar (2nd generation) ≎

The "Back" icon takes you back to the standard Touch Bar.

When creating or changing categories and entries, all changes made are saved automatically. For this reason, there is neither a corresponding menu entry nor a "Save" button. An entry can be edited by single-clicking or double-clicking. When editing an entry, it may be necessary to scroll up and down the details area. To get to the beginning or end of the details with just one click, there are the icons "Up" and "Down" in the toolbar menu.

Show or hide entries with "Stock = 0"

If this switch is activated, only entries with a stock > 0 are displayed. This applies to all categories except the following:

- Number of bottles = 0
- Trash
- Minimum quantity
- Minimum quantity reached
- Minimum quantity not reached
- Vintage Bottles

Entries with "Stock = 0" are displayed

Entries with "Stock = 0" are not displayed

Show or hide details

If the details are visible, they can be hidden using the "Details" icon in the toolbar menu.

This icon can be used to show the details again.

This function is also available in the Touch Bar. Double-clicking on an entry automatically displays the details.

If the details are hidden, a preview of the selected entry can be called up by pressing the space bar on the keyboard. All details can also be changed in this preview.

When filling in the fields, all entries and changes are saved immediately. You can enter a date in the macOS calendar for the "Keep until" and "Drink until" date fields. To do this, select the corresponding command in the date field in the context menu. If "Create appointment automatically" has been activated in the <u>preferences</u>, the appointment will be created automatically. The calendar symbol to the right of the date fields indicates whether an appointment exists in the calendar. If this is the case, the day of the appointment is displayed in the calendar.

Adding a picture via the macOS Media Browser

A product photo can also be imported via the macOS Media Browser. Select the following icon below the product photo. Drag a photo from the Media Browser into the product photo area.

You also have the option of searching for a product image on the Internet. To do this, select the appropriate search from the context menu in the product photo area. You can then drag a picture directly from the web browser into the «My wine storage» window.

You can also use the clipboard to copy a product photo from one entry to another. To do this, select the original entry. In the context menu of the product photo, select "Copy picture". Now select the target entry. In the context menu of the product photo, select "Insert picture". The "Paste picture" function can also be used to insert all graphic elements via the clipboard.

The current picture can also be deleted via this context menu.

Add picture via iOS device

A product photo can also be added via an iOS device. To do this, click on the import icon.

The picture can now be used as an article picture or as an additional picture.

Copy shop from winery

If you purchase your wine directly from the winery, then you do not need to create the data again as a new shop, you can drag and drop the corresponding winery from the "Wineries" window into the "Shop" window. This will create a new shop with the name and all the data of the winery.
