### FIRST START

### FIRST START

After you have started «Warranty Manager» for the first time, it creates the database with some example entries. If you want, you can delete these entries. The location of the database and the attached files is "\$HOME/Library/Containers/de.pps4me.garantiemanager/Data/Library/Application Support/GarantieManager".

The main window is divided into the following areas:

- 1. Toolbar menu
- 2. Search field
- 3. Menu for "All entries", shops, category, manufacturers and filter by date
- 4. Selection for article list or details and scroll through all entries of the article list
- 5. List of items
- 6. Goto start and end of list
- 7. Information area
- 8. Details

# ADD EAN-13 Barcode

### ADD EAN-13 BARCODE

In the field "Barcode" you can enter an EAN-13 code. The length of the code is 1-12 digits. The last 13th digit is calculated automatically. A barcode can also be added by "drag and drop". Drag a graphic file with the barcode into the EAN-13 Code area.

The following barcode types can be read:

- Aztec Code ISO 24778
- Code 11
- Code 128 Subset B
- Code 128 automatic subset switching
- Code 3 of 9 Code 39
- Code 32
- Code 93
- EAN-14
- EANX

## ADD EAN-13 Barcode

- Extended Code 3 of 9 Code 39+
- HIBC Aztec Code
- HIBC Code 128
- HIBC Code 39
- HIBC QR Code
- ITF-14
- LOGMARS
- NVE-18
- PZN
- QR Code
- UPC A
- UPC E

The application converts the read code into an EAN-13 code. The prerequisite for this is that the barcode to be recognized consists only of digits with a maximum length of 13 digits. If, for example, a barcode consisting of text is used, a corresponding message appears.

#### Add event manually

Once you have stored an entry, you can create an event in the calendar. Click with the right mouse button on the calendar icon in the additional information.

The event will be stored in the default calendar. A corresponding message is displayed in the message center. It is best to create another calendar named «Warranty Manager» in the calendar application and then select it as your default calendar in the «Warranty Manager». You can of course use any other available calendars for which you have write permission. More information for setting the default calendar for the «Warranty Manager», refer to the preferences.

### MANAGE WARRANTY END DATE

For the automatic generation of an event, select in the preferences "Generate event automatically". Now when saving a new record, the event for the end of the warranty is automatically generated. If you edit an existing item that has not entered an event, a new event is automatically created when you save the entry. A corresponding message is displayed in the message center.

### MANAGE WARRANTY END DATE

#### **Delete event**

To delete an existing appointment in the calendar or the selected entry, click on the calendar icon in the additional information area and select "Delete appointment". This deletes the appointment from the calendar. The warranty end date remains unchanged.

If you deactivate the warranty end date, the date of the current entry and also the date in the calendar will be deleted.

If you change the warranty end date or the name of the item, this will also be changed for the current date, if there is a date in the calendar and "Automatically create date" is selected in the settings.

#### Export as .ics file

You can export the warranty end as "vCalendarEvent" to an ".ics" file. To do this, click on the calendar icon in the additional details area and select "Export as .ics".
